

PRO-SERIES SUCTION INSTALLATION MANUAL

VINYL

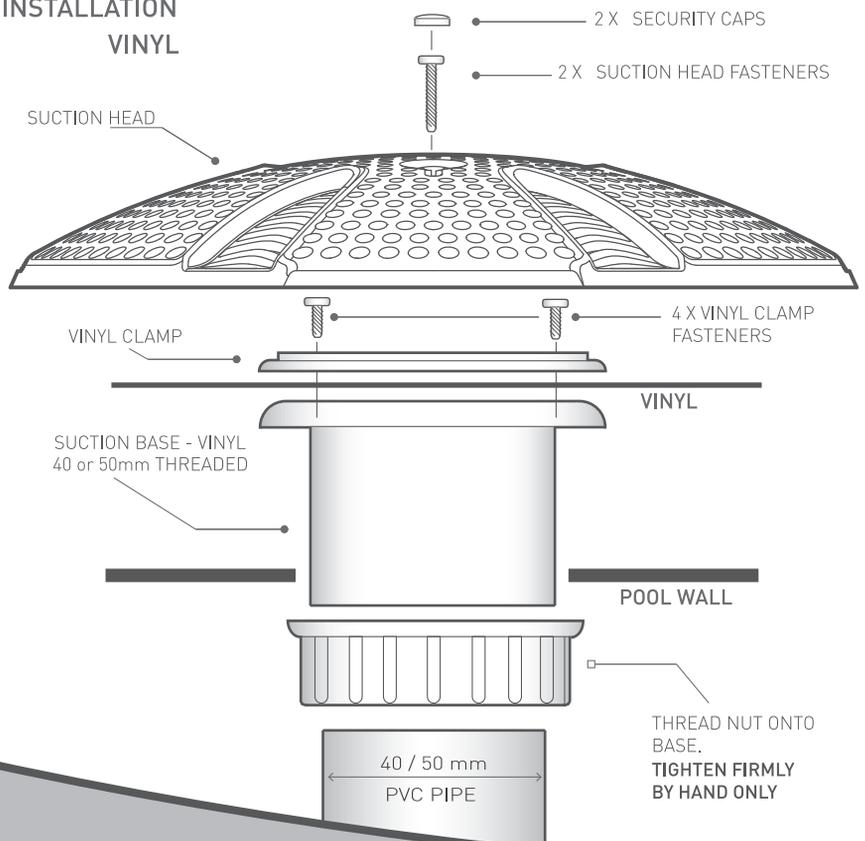

IMPORTANT INFORMATION

- All Pro-Series Suctions have been tested & conform to **AS/NZS 1926.3.2010** standard.
- Spa Electrics recommends all installers are familiar with **AS/NZS 1926.3.2010** standard prior to installation.
- It is the responsibility of the installer to ensure maximum flow rates are **NOT** exceeded.
- Pro-Series Suctions have been permanently marked with approved test data in accordance with **AS/NZS 1926.3.2010** standard.
- All Pro-Series suction must be permanently fixed to the pool wall, to prevent removal without the use of tools. [in accordance with **AS/NZS1926.3.2010**]
- All Pro-Series Vinyl fittings are supplied disassembled with fixing screws for assembly.
- **ANY modification to this device OR its installation will VOID its compliance certification & statutory warranty and affect the safety of the unit.**
